A POETIC SCI-FI SHORT STORY

A personal story about doubt and the fear of the unknown.

At a bus stop at dusk, the thoughts of two men fascinated and paralyzed by the unknown intertwine. EMMA is an animated graphic novel that explores a unique musical and visual landscape.

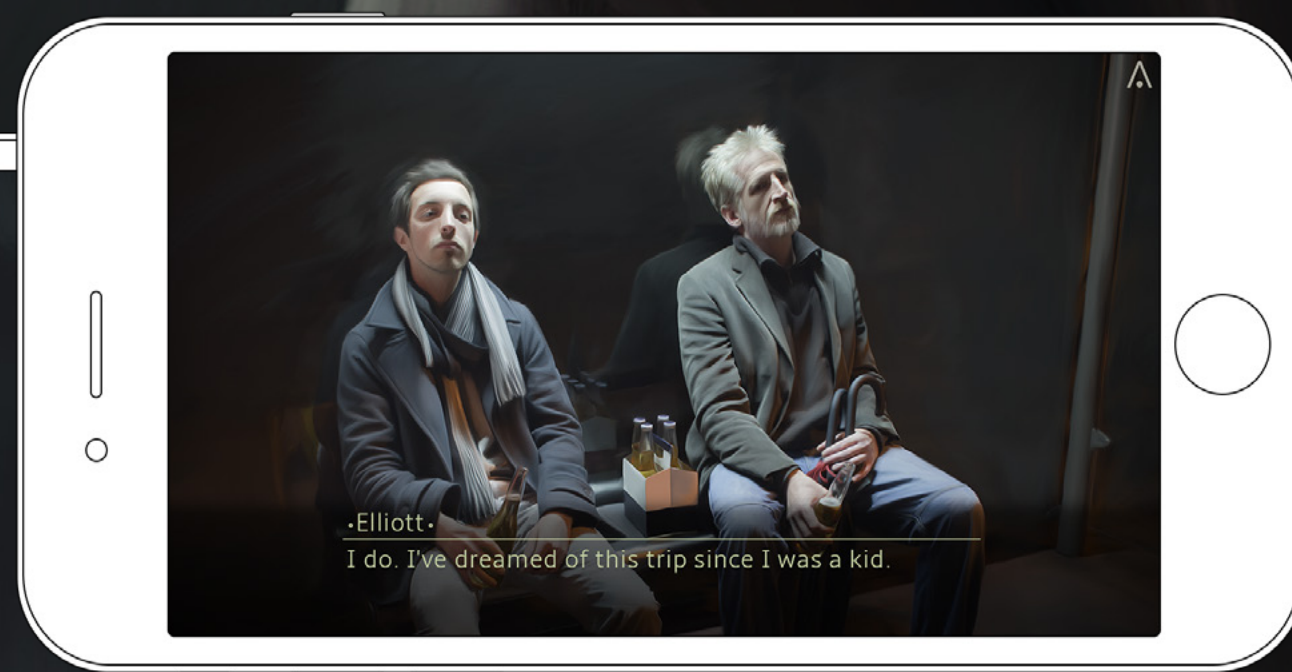

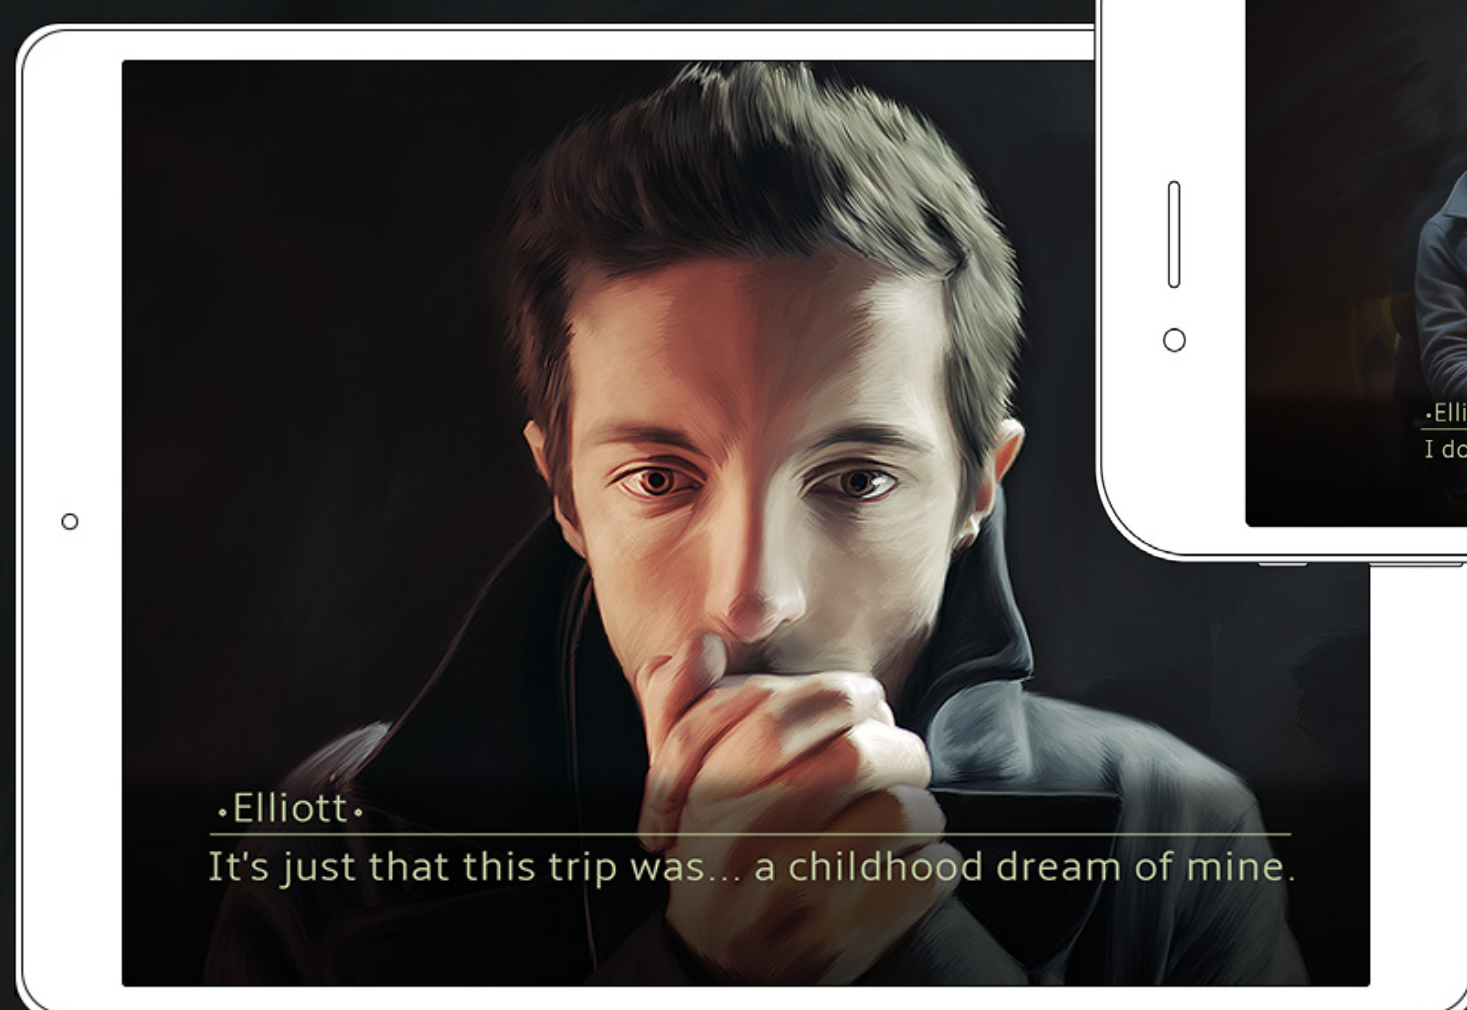

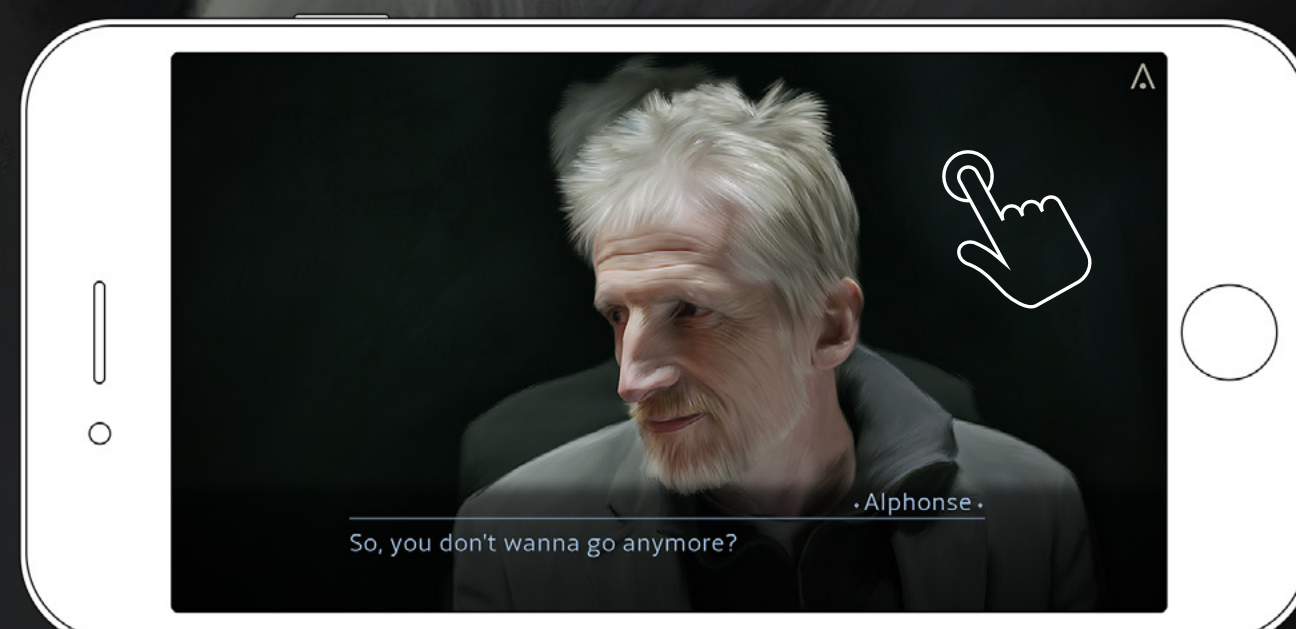

With its short and immersive format, EMMA reveals a world that's both simple and familiar, transformed by a fascination with space and infinity, where everything is yet to be discovered.

This tale is the first episode in a collection of short, poetic stories currently in development that revolves around the planet EMMA.

AN IMMERSIVE NARRATIVE EXPERIENCE

A dynamic story that unfolds at the user's pace.

The viewer scrolls through the images and text by touching the screen. Accompanied by an original soundtrack, the viewer travels through EMMA's unique atmosphere.
